FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Raina Allport, LLC
DOCKET NO.: 24-25009.001-R-1
PARCEL NO.: 17-20-315-016-0000

The parties of record before the Property Tax Appeal Board are Raina Allport, LLC, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***A Reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$11,562
IMPR.:	$80,500
TOTAL:	$92,062

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story mixed-use building of masonry exterior construction with 5,361 square feet of building area that is approximately 133 years old. Features of the building include a basement with finished recreation room and central air conditioning. The property has an approximately 3,125 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story or 3-story class 2-12 buildings of masonry exterior construction ranging in size from 5,824 to 7,350 square feet of building area. The buildings

range from 131 to 138 years old. Each comparable has a basement, with two having finished recreation rooms. The comparables have improvement assessments ranging from $52,120 to $63,935 or from $8.70 to $9.09 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to $47,980 or $8.95 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $118,730. The subject property has an improvement assessment of $107,167 or $19.99 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in a different assessment neighborhood code than the subject property. The comparables are improved with 2-story or 3-story class 2-12 buildings of masonry exterior construction ranging in size from 7,000 to 7,650 square feet of building area. The buildings are from 129 to 157 years old. Two comparables have an unfinished basement, two buildings have central air conditioning and one comparable has 2-car garage. The comparables have improvement assessments ranging from $111,370 to $157,829 or from $14.80 to $21.18 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives reduced weight to appellant comparables #1 and #4 along with the board of review comparbles which are less similar to the subject in location and/or building size.

The Board finds the best evidence of assessment equity to be appellant comparables #2, #3 and #5 which are more similar to the subject in location, age and building size. However, these properties present varying degrees of similarity to the subject in design and presence of central air conditioning, suggesting adjustments are needed to make these properties more equivalent to the subject. These comparables have improvement assessments ranging from $52,120 to $59,388 or from $8.80 to $9.09 per square foot of building area. The subject's improvement assessment of $107,167 or $19.99 per square foot of building area falls above the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
