FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Deshe Real Estate
DOCKET NO.: 24-25015.001-R-1
PARCEL NO.: 16-25-301-001-0000

The parties of record before the Property Tax Appeal Board are Deshe Real Estate, the appellant, by attorney Michael R. Davies, of Ryan Law, PLLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***A Reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$7,585
IMPR.:	$43,325
TOTAL:	$50,910

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story mixed-use building of masonry exterior construction with 6,418 square feet of building area. The building is approximately 113 years old and features a basement. The property has an approximately 5,231 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located in the same assessment neighborhood code and from 0.23 of a mile to 1.19 miles from the subject property. The comparables are improved with 2-story or 3-story class 2-12 buildings of masonry exterior construction ranging in size from 6,691 to 7,134 square feet of building area. The buildings range from 64 to 119 years old. Three comparables have a

basement and two comparables have either a crawl space or concrete slab foundation. Two buildings have central air conditioning and one comparable has a 3-car garage. The comparables have improvement assessments ranging from $36,469 to $41,656 or from $5.45 to $5.87 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to $36,390 or $5.67 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $71,557. The subject property has an improvement assessment of $63,972 or $9.97 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in different assessment neighborhood codes than the subject property. The comparables are improved with 2-story or 3-story class 2-12 buildings of masonry exterior construction ranging in size from 3,452 to 6,375 square feet of building area. The buildings are from 109 to 133 years old. Each comparable has a basement, one building has central air conditioning and two comparables each have a 2-car garage. The comparables have improvement assessments ranging from $55,200 to $72,200 or from $10.54 to $15.99 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives reduced weight to appellant comparables #2, #3 and #4 which are less similar to the subject in age, garage amenity and/or are located more than one mile from the subject. The Board gives less weight to the board of review's comparables which are located outside of the subject's neighborhood code and where comparables #1 and#3 also differ from the subject in dwelling size and garage amenity.

The Board finds the best evidence of assessment equity to be appellant comparables #1 and #5 which are more similar to the subject in location, age, building size and some features. These comparables have improvement assessments of $36,469 and $39,300 or $5.45 and $5.87 per square foot of building area. The subject's improvement assessment of $63,972 or $9.97 per square foot of building area falls above the two best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
