

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Cheryl Curry
DOCKET NO.: 24-26009.001-R-1
PARCEL NO.: 16-06-401-013-0000

The parties of record before the Property Tax Appeal Board are Cheryl Curry, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,060
IMPR.: \$57,714
TOTAL: \$65,774

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 105-year-old, two-story dwelling of masonry construction with 2,444 square feet of living area. Features of the home include a full basement, one fireplace and a two-car garage. The property has a 6,200 square foot site and is located in Oak Park, Oak Park Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five suggested equity comparable properties with varying degrees of similarities to the subject. These comparables are described as masonry or frame and masonry construction, two-story dwellings. They range in age from 70 to 119 years; in size from 2,218 to 2,641 square feet of living area; and an improvement assessment from \$19.51 to \$24.53 per square foot of living area. These properties have 1.5 to 3.5

bathrooms. The suggested comparable properties are located within a 1.12-mile radius of the subject property. The appellant requested the subject's total assessment be reduced to \$65,774.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$68,525. The subject property has an improvement assessment of \$60,465 or \$24.74 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparable properties with varying degrees of similarities to the subject. These comparables are described as stucco exterior, frame, or frame and masonry construction, two-story dwellings. They range in age from 98 to 105 years; in size of 2,504 to 2,680 square feet of living area; and an improvement assessment ranging from \$25.05 to \$31.69 per square foot of living area. These properties have partial or full basements. The properties are located within a ¼-mile radius of the subject property. The board of review requested that the assessment be confirmed.

In rebuttal, the appellant pointed out characteristic differences in the board of review's suggested comparables to the subject property. The appellant reaffirmed its position that the 2024 assessed value for the subject property is excessive and that the total assessment should be reduced.

At the hearing, the appellant reaffirmed the evidence previously submitted. The board of review did not call any witnesses and rested its case upon its written evidence submissions.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const., art. IX, § 4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did meet this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity most aligns with the appellant's suggested comparables #1, #4, and #5. The dwellings on these comparables are the most similar to the subject dwelling in age, construction, location, amenities and living area size. As for the comparables not considered the best evidence, the Board finds the board of review's suggested

comparables and the appellant's suggested comparables #2 and #3 are not similarly constructed as the subject property.

The best comparables have improvement assessments of \$19.51 to \$24.53 per square foot of living area. The subject's improvement assessment of \$24.74 per square foot of living area falls above the total assessment established by the best comparable in this record. After considering all the best comparable properties submitted by the parties with emphasis on those properties that are proximate in location, similar in size of living area, and with similar features to the subject and after further considering adjustments to the best comparable properties for differences from the subject, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
