

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Sundermeier  
DOCKET NO.: 24-26812.001-R-1  
PARCEL NO.: 23-23-408-003-0000

The parties of record before the Property Tax Appeal Board are Michael Sundermeier, the appellant(s), by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$14,541  
**IMPR.:** \$40,459  
**TOTAL:** \$55,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 38,775 square foot site improved with a two-story dwelling of frame and masonry construction with 3,469 square feet of living area. The dwelling on the property is approximately forty-three years old. Features include a partial basement, central air conditioning, and a two-car garage. The subject property is located in Palos Park, Palos Township, Cook County and is classified as a 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five suggested equity comparables with varying degrees of similarity to the subject property. The comparable properties offered by the appellant are each constructed of frame and masonry, have either a two-car or three-car garage, and range in size from 2,801 to 3,505 square feet of living area. Three of the comparables have central air

conditioning and two do not. Four have a partial basement and one has a partial basement. The comparables range in age from forty-nine to sixty-one years old and are between 0.80 to 1.16 miles from the subject property. The comparables have improvement assessments ranging from \$8.26 to \$10.01 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$47,011.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject as \$55,000. The subject property has an improvement assessment of \$40,459 or \$11.66 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables. The suggested comparable properties range in size from 2,618 to 3,624 square feet of living area. All of the board of review's suggested properties are constructed of frame and masonry, have between a two-car and three-car garage, and central air conditioning. Two have a partial basement and two have a full basement. The comparable properties range in age from thirty-eight to fifty-one years old and have improvement assessments ranging from \$12.60 to \$17.91 per square foot of living area. The board of review reports that two of the comparables are located in the same subarea as the subject property, one on the same block, and one within a quarter mile. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const., art. IX, § 4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4<sup>th</sup> Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3 and the board of review's comparables #3 and #4. These comparable properties had the most similar sized living areas, age, features and were in closer proximity to the subject property than all other comparables. In comparison, the board of review's comparables #1 and #2 and the appellant's comparable #2 differed more significantly in square feet of living area from the

subject property. The appellant's comparables #4 and #5 were over a mile away from the subject. The Board finds that these comparables are afforded less weight based on these differences.

The best evidence comparables had improvement assessments of \$8.26 to \$13.10 per square foot of living area. The subject's improvement assessment of \$11.66 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
