

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Salvador Irizarry
DOCKET NO.: 24-26879.001-R-1
PARCEL NO.: 13-36-424-023-0000

The parties of record before the Property Tax Appeal Board are Salvador Irizarry, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,665
IMPR.: \$51,333
TOTAL: \$67,998

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of frame and masonry exterior construction with 3,096 square feet of gross building area. The building is approximately 137 years old. Features include a full basement with an apartment and 3 bathrooms. The property has a 2,976 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same assessment neighborhood as the subject and from 0.50 to 0.90 of a mile from the subject. The comparables are improved with class 2-11, 2-story multi-family buildings of frame exterior construction ranging in size from 2,730 to 3,241 square feet of gross building

area. The buildings are from 134 to 138 years old. Each comparable has a full basement with an apartment or family room, 3 or 4 bathrooms, and a 2-car garage. The comparables have improvement assessments ranging from \$38,360 to \$42,480 or from \$13.11 to \$14.05 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$42,168 or \$13.62 per square foot of gross building area.

The appellant submitted a copy of the Cook County Board of Review final decision disclosing the subject has a total assessment of \$67,998. The subject has an improvement assessment of \$51,333 or \$16.58 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same assessment neighborhood and subarea as the subject. The comparables are improved with class 2-11, 2-story multi-family buildings of frame and masonry exterior construction ranging in size from 2,640 to 3,180 square feet of gross building area. The buildings are from 118 to 139 years old. The buildings each have a full basement, with three having an apartment or recreation room, either 3, 3½ or 4 bathrooms, and a 2-car garage. Comparable #1 has central air conditioning. The comparables have improvement assessments ranging from \$52,974 to \$61,200 or from \$18.95 to \$20.27 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #4 and the board of review's comparables #1 and #3 due to differences in their age, building size, and/or central air conditioning amenity when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparable which are relatively similar to the subject in age, building size, and most features. However, each comparable has a garage, suggesting a downward adjustment is required for this feature to make them more equivalent to the subject, which lacks a garage. These five comparables have improvement assessments ranging from \$41,159 to \$61,200 or from \$13.11 to \$19.25 per square foot of gross building area. The subject's improvement assessment of \$51,333 or \$16.58 per square foot of gross building area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and

convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
