

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Agnello
DOCKET NO.: 24-27010.001-R-1
PARCEL NO.: 13-36-109-057-0000

The parties of record before the Property Tax Appeal Board are Michael Agnello, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,000
IMPR.: \$39,748
TOTAL: \$53,748

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 2,120 square feet of gross building area. The subject is approximately 30 years old. Features of the building include a basement with finished area and a 2-car garage. The property has an approximately 2,500 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code and within 2.10 miles of the subject property. The comparables are improved with 2-story or 3-story class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,200 to 2,572 square feet of

gross building area. The buildings range in age from 21 to 125 years old. Three comparables have a basement and one comparable has a concrete slab foundation. One comparable has a fireplace and three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$32,500 to \$45,797 or from \$14.77 to \$18.17 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$36,273 or \$17.11 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$53,748. The subject property has an improvement assessment of \$39,748 or \$18.75 per square foot of gross building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code and within a ¼ of a mile or a subarea of the subject property. The comparables are improved with 2-story class 2-78 dwellings of frame or frame and masonry exterior construction with 2,160 or 2,292 square feet of living area. The homes are 26 years old. Each comparable has a basement, central air conditioning, a fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$70,500 to \$73,500 or from \$30.76 to \$33.10 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In response to the data submitted by the board of review, the appellant noted the subject property has masonry exterior construction and the board of review's comparables have frame or frame and masonry exterior construction.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #1 and #2 which are less similar to the subject in age and/or foundation type. The Board also gives less weight to the board of review's comparable which are less similar to the subject in class.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4 which are more similar to the subject in class, age, design, gross building size and most features. However, these properties present varying degrees of similarity to the subject in design/style and dwelling size suggesting adjustments are needed to make these comparables more equivalent to the subject. These comparables have improvement assessments of \$42,200 and \$45,797 or \$17.81 and \$18.17 per square foot of gross building area. The subject's improvement assessment of \$39,748 or \$18.75 per square foot of gross building area falls below the range established by the best comparables in this record on an overall improvement

assessment basis and above on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which, appears to exist on the basis of the evidence in this record.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
