

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Luz Rios
DOCKET NO.: 24-27038.001-R-1
PARCEL NO.: 13-25-302-014-0000

The parties of record before the Property Tax Appeal Board are Luz Rios, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,375
IMPR.: \$37,625
TOTAL: \$57,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,344 square feet of living area. The dwelling is approximately 127 years old. Features of the home include a crawl space foundation and a 1.5-car garage. The property has a 3,125 square foot site located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables located within the subject's assessment neighborhood and within 0.60 of a mile from the subject property. The comparables consist of class 2-03 dwellings of frame exterior construction ranging in size 1,291 to 1,444 square feet of living area. The dwellings are 145 or 147 years old. Each comparable has a basement and a 2-car garage. The comparables have improvement

assessments ranging from \$29,470 to \$34,470 or from \$22.83 to \$23.87 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$57,000. The subject property has an improvement assessment of \$37,625 or \$27.99 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same assessment neighborhood, block and street as the subject property. The comparables consist of class 2-03 dwellings of frame exterior construction ranging in size from 1,260 to 1,344 square feet of living area. The dwellings are 127 to 129 years old. Each comparable has a basement, and comparables #2, #3 and #4 each have a 2-car garage. The comparables have improvement assessments ranging from \$37,070 to \$43,625 or from \$27.99 to \$33.04 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven comparable properties for the Board's consideration, all of which have a basement foundation relative to the subject's crawl space foundation. Nevertheless, the Board gives less weight to the appellant's comparables which are less similar to the subject in age than the board of review's comparables.

The Board finds the best evidence of assessment equity to be the board of review's comparables which are located within the same assessment neighborhood, block and along the same street as the subject. Moreover, these comparables are overall most similar to the subject in design, age, and dwelling size but have a basement foundation, which the subject lacks. The board of review comparable #1 lacks a garage amenity, which is a feature of the subject. These four comparables have improvement assessments that range from \$37,070 to \$43,625 or from \$27.99 to \$33.04 per square foot of living area. The subject's improvement assessment of \$37,625 or \$27.99 per square foot of living area falls within the range established by the best comparables on an overall basis and matches the board of review comparable #1 that established the lower limit of the per square foot value range. After considering adjustments to the best comparables for differences in features from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
