

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marian Simon  
DOCKET NO.: 24-27213.001-R-1  
PARCEL NO.: 13-25-104-003-0000

The parties of record before the Property Tax Appeal Board are Marian Simon, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$18,600  
**IMPR.:** \$35,546  
**TOTAL:** \$54,146

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story mixed use building of masonry exterior construction with 4,044 square feet of gross building area. The building is approximately 114 years old. Features of the subject include a basement. The property has an approximately 3,000 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located in the same assessment neighborhood code and within .56 of a mile of the subject property. The comparables are improved with 2-story or 3-story class 2-12 mixed use buildings of masonry or frame and masonry exterior construction ranging in size from 3,210 to

3,750 square feet of gross building area. The buildings range in age from 104 to 143 years old. Two comparables have a basement and one comparable has a concrete slab foundation. Two comparables have a 1½-car or a 2½-car garage. The comparables have improvement assessments ranging from \$27,625 to \$33,400 or from \$8.41 to \$9.34 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$35,546 or \$8.79 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$60,000. The subject property has an improvement assessment of \$41,400 or \$10.24 per square foot of gross building area. The board of review did not submit any equity comparables for the Board's review.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted three equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 which is less similar to the subject in design, age, and building size.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3 which are more similar to the subject in location, age, design, building size and other features. These comparables have improvement assessments of \$31,546 and \$33,400 or \$8.41 and \$9.34 per square foot of gross building area. The subject's improvement assessment of \$41,400 or \$10.24 per square foot of gross building area falls above the two best comparables in this record. After considering adjustments to the two best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment, commensurate with the appellant's request, is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which, appears to exist on the basis of the evidence in this record.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
