FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Chris McKenzie
DOCKET NO.: 24-27226.001-R-1
PARCEL NO.: 17-08-106-043-0000

The parties of record before the Property Tax Appeal Board are Chris McKenzie, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***A Reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$14,393
IMPR.:	27,386
TOTAL:	$41,779

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 1,888 square feet of gross building area. The building is approximately 147 years old. Features of the subject include a basement with finished area[1]. The property has an approximately 1,932 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity

comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-11 multi-family buildings of masonry or frame and masonry exterior construction ranging in size from 2,033 to 2,536 square feet of gross building area. The buildings range in age from 132 to 146 years old. Three comparables have a basement with finished area and one comparable has a concrete slab foundation. One comparable has a 1-car garage. The comparables have improvement assessments ranging from $26,719 to $33,114 or from $12.96 to $13.39 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to $24,808 or $13.14 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $63,700. The subject property has an improvement assessment of $49,307 or $26.12 per square foot of gross building area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story or 3-story class 2-11 multi-family buildings of masonry exterior construction ranging in size from 1,120 to 3,600 square feet of gross building area. The buildings range in age from 23 to 147 years old. Two comparables have a basement, with one having finished area and one comparable has a concrete slab foundation. One comparable has central air conditioning and one comparable has three fireplaces. Two comparables have a 1-car or a 3-car garage. The comparables have improvement assessments ranging from $30,292 to $97,091 or from $26.35 to $27.05 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2 and #4 and the board of review's comparables which are less similar to the subject in dwelling size, foundation type, garage amenity, age, and/or central air conditioning, a feature the subject lacks.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #5 which are more similar to the subject in location, age, design, building size and other features. These comparables have improvement assessments of $26,719 and $28,054 or $13.14 and $13.39 per square foot of gross building area. The subject's improvement assessment of $49,307 or $26.12 per square foot of gross building area falls above the two best comparables in this record. After considering adjustments to the two best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the

subject's improvement was inequitably assessed and a reduction in the subject's assessment, commensurate with the appellant’s request, is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
