

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Calin Manta
DOCKET NO.: 24-27278.001-R-1
PARCEL NO.: 16-13-411-054-0000

The parties of record before the Property Tax Appeal Board are Calin Manta, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,595
IMPR.: \$59,405
TOTAL: \$67,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of masonry exterior construction with 3,864 square feet of gross building area. The building is approximately 26 years old. Features include a full basement with an apartment, 3 bathrooms, and central air conditioning. The property has a 2,921 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the subject's assessment neighborhood and within 0.50 of a mile from the subject. The comparables are improved with class 2-11, "2 or more story" multi-family buildings of masonry exterior construction ranging in size from 3,126 to 3,685 square feet of gross building

area. The buildings are from 126 to 136 years old. Each comparable has a full basement, three of which have an apartment or a family room, 3 bathrooms, and central air conditioning. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$28,867 to \$42,875 or from \$8.38 to \$12.05 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$38,215 or \$9.89 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$67,000. The subject has an improvement assessment of \$59,405 or \$15.37 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood and within the subject's subarea or approximately 0.25 of a mile from the subject property. The comparables are improved with class 2-11, 2-story or 3-story multi-family buildings of frame or masonry exterior construction ranging in size from 1,814 to 4,035 square feet of gross building area. The buildings are from 7 to 137 years old. Two comparables have full basements with an apartment, and two comparables have concrete slab foundations. Three comparables each have central air conditioning, and one comparable has a 3-car garage. The comparables have improvement assessments ranging from \$29,875 to \$66,386 or from \$16.45 to \$16.80 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. Except for the board of review comparable #1, the comparables significantly differ from the subject in age, building size, and foundation type. Nevertheless, the Board gives less weight to the appellant's comparables #2 and #3 as well as the board of review's comparables #2, #3 and #4 due to differences in their smaller dwelling sizes and/or the lack of a basement foundation when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are most similar to the subject in building size, basement foundation, bathroom count, and some features. However, the appellant's two comparables require upward adjustments for the buildings' 136-year-old ages relative to the subject's 25-year-old age to make them more equivalent to the subject. Conversely, the board of review's comparable #1 which is identical in age to the subject building, requires a downward adjustment for a garage, which is a feature the

subject lacks. These three comparables have improvement assessments ranging from \$30,875 to \$66,386 or from \$8.38 to \$16.45 per square foot of gross building area. The subject's improvement assessment of \$59,405 or \$15.37 per square foot of gross building area falls within the range established by best comparables in the record and below the board of review's comparable #1 that sets the upper limit of the value range of the three best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
