

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: WASHTENAW 1828 GRP LLC
DOCKET NO.: 24-27428.001-R-1
PARCEL NO.: 13-36-410-036-0000

The parties of record before the Property Tax Appeal Board are WASHTENAW 1828 GRP LLC, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,640
IMPR.: \$49,360
TOTAL: \$67,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of frame exterior construction with 3,097 square feet of gross building area. The building is approximately 125 years old. Features of the building include an unfinished full basement and a 2-car garage. The property has a 3,150 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood and within 0.70 of a mile from the subject. The comparables consist of class 2-11, 2-story buildings of frame exterior construction ranging in size from 2,730 to 3,062 square feet of gross building area. The

buildings are 136 or 138 years old. Each comparable has a full basement, three of which have a recreation room or an apartment, and a 2-car garage. The comparables have improvement assessments ranging from \$34,096 to \$41,620 or from \$12.47 to \$14.05 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$41,376 or \$13.36 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,000. The subject property has an improvement assessment of \$49,360 or \$15.94 per square foot of gross building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood as the subject, and two of which are located within the same subarea as the subject. The comparables consist of class 2-11, 1.5-story, 2-story or 3-story buildings of frame or masonry exterior construction ranging in size from 1,920 to 4,608 square feet of gross building area. The buildings are 134 to 137 years old. Three comparables have full basements, two of which have an apartment. One comparable has a slab foundation. Two comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$32,872 to \$79,000 or for \$17.12 and \$17.14 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #4 as well as the board of review's comparables #2, #3, #4 which are less similar to the subject in design, building size, and/or foundation type than the other comparables in the record.

The Board finds the best equity evidence of assessment equity to be the parties' remaining comparables which are overall most similar to the subject in design, age, building size, location and some features. These three comparables have improvement assessments ranging from \$39,480 to \$53,928 or from \$13.33 to \$17.12 per square foot of gross building area. The subject's improvement assessment of \$49,360 or \$15.94 per square foot of gross building area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
