

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Renee Greenman
DOCKET NO.: 24-27497.001-R-1
PARCEL NO.: 17-06-207-003-0000

The parties of record before the Property Tax Appeal Board are Renee Greenman, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,352
IMPR.: \$54,846
TOTAL: \$84,198

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story mixed-use building of masonry exterior construction containing 3,320 square feet of building area. The building is approximately 121 years old. Features of the building include a slab foundation and central air conditioning. The property has an approximately 2,950 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-12, 2-story mixed-use buildings of masonry exterior construction that range in size from 3,040 to 3,775 square feet of building area. The buildings range in age from 98 to 128 years old. Each comparable has a partial basement and central air conditioning. One comparable has a 1.5-car garage. The comparables have improvement

assessments that range from \$50,871 to \$61,150 or from \$16.20 to \$16.73 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted the board of review finale decision disclosing the total assessment for the subject of \$88,582. The subject property has an improvement assessment of \$59,230 or \$17.84 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-12, 2-story or 3-story mixed-use buildings of masonry exterior construction that range in size from 3,089 to 6,000 square feet of building area. The buildings range in age from 119 to 133 years old. Each comparable has a full or partial basement and central air conditioning. Two comparables each have a 1.5-car or 2-car garage. The comparables have improvement assessments ranging from \$78,144 to \$206,906 or from \$18.50 to \$35.00 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to appellant's comparable #1 as well as the board of review comparables due to their differences from the subject in building size and/or garage amenity.

The Board finds the best evidence of assessment equity to be appellant's comparables #2, #3 and #4. The Board finds that these three comparables are most similar to the subject in class, building size, age, design and some features. These most similar comparables have improvement assessments ranging from \$50,871 to \$59,150 or from \$16.43 to \$16.73 per square foot of building area. The subject's improvement assessment of \$59,230 or \$17.84 per square foot of building area falls above the range of the three best comparables in this record. Based on this record and after considering adjustments to the three best comparables for differences from the subject, the Board finds the subject's assessment is excessive. Therefore, based on this record the Board finds a reduction in the subject's assessment commensurate with the appellant's request is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
