

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tom Fitzgerald
DOCKET NO.: 24-27504.001-R-1
PARCEL NO.: 14-31-302-045-0000

The parties of record before the Property Tax Appeal Board are Tom Fitzgerald, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,880
IMPR.: \$55,964
TOTAL: \$76,844

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, multi-family building of masonry exterior construction with 2,679 square feet of gross building area. The building was built in 1897 and is approximately 127 years old. The building features a full basement and a 2-car garage. The property has a 2,400 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story or 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,790 to 2,865 square feet of gross building area. The

buildings are 103 to 148 years old. Each comparable has a full basement, one of which is finished with an apartment, and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$50,468 to \$54,120 or from \$17.92 to \$19.20 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$76,844. The subject property has an improvement assessment of \$55,964 or \$20.89 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,556 to 2,912 square feet of gross building area. The buildings are 127 to 136 years old. Each comparable has a full basement, one of which is finished with an apartment. One comparable has central air conditioning. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$54,495 to \$63,627 or from \$21.32 to \$21.97 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to board of review comparables #2 and #3 which feature central air conditioning, unlike the subject, or lack a garage amenity, which the subject features.

The Board finds the best evidence of assessment equity to be the appellant's comparables, as well as board of review comparables #1 and #4, which are overall most similar to the subject in neighborhood code, classification, age, dwelling size, and other features. The best comparables have improvement assessments ranging from \$50,468 to \$63,627 or from \$17.92 to \$21.97 per square foot of gross building area. The subject's improvement assessment of \$55,964 or \$20.89 per square foot of gross building area falls within the range established by the best comparables in this record. After considering the necessary adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
