

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Donald Dedic  
DOCKET NO.: 24-27512.001-R-1  
PARCEL NO.: 17-17-314-034-0000

The parties of record before the Property Tax Appeal Board are Donald Dedic, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,927  
**IMPR.:** \$52,073  
**TOTAL:** \$59,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story townhome of masonry exterior construction with 1,829 square feet of living area. The dwelling was built in 1998 and is approximately 26 years old. Features include a partial basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The property has a 1,237 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-95 townhomes, three of which have masonry exterior construction, ranging in size from 1,795 to 1,860 square feet of living area. The comparables are

either 26 or 44 years old. Each comparable has a full or partial basement, central air conditioning, and a 2-car garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$35,674 to \$53,053 or from \$19.18 to \$29.56 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$62,000. The subject property has an improvement assessment of \$55,073 or \$30.11 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-95 townhomes of masonry exterior construction with either 1,409 or 1,415 square feet of living area. The homes are each 27 years old. Each comparable has a partial basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments of either \$47,440 or \$47,614 or ranging from \$33.53 to \$33.79 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #2 which are substantially older homes than the subject and the board of review comparables which are substantially smaller homes than the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4 which are overall more similar to the subject in location, design/class, age, dwelling size, and other features. The best comparables have improvement assessments of \$51,836 and \$53,053 or \$28.43 and \$29.56 per square foot of living area. The subject's improvement assessment of \$55,073 or \$30.11 per square foot of living area falls above the two best comparables in this record and appears to be excessive. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
