

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Kling
DOCKET NO.: 24-27645.001-R-1
PARCEL NO.: 16-01-219-006-0000

The parties of record before the Property Tax Appeal Board are David Kling, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,168
IMPR.: \$53,332
TOTAL: \$74,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-family building of masonry exterior construction with 4,300 square feet of gross building area. The building was built in 1894 and is approximately 130 years old. Features include a full basement, central air conditioning, and a 2-car garage. The property has a 3,780 square foot site and is located in Chicago, West Chicago, Leyden Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables reported to be improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size 4,048 to 4,917 square feet of gross building area. The buildings range in age from 101 to

131 years old. Each comparable has a full basement, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from \$48,800 to \$61,500 or from \$12.06 to \$12.59 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$80,700. The subject property has an improvement assessment of \$59,532 or \$13.84 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 4,050 to 4,896 square feet of gross building area. The buildings are 123 to 132 years old. Each comparable has a full basement. Three comparables each have a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$57,105 to \$82,066 or from \$14.10 to \$19.00 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be sustained.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #3 and the board of review comparables due to differences when compared to the subject in central air conditioning, gross building size, and/or garage amenity.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, and #4 which are overall more similar to the subject in location, classification, age, gross building size, and other features. The best comparables have improvement assessments ranging from \$48,800 to \$56,800 or from \$12.06 to \$12.59 per square foot of gross building area. The subject's improvement assessment of \$59,532 or \$13.84 per square foot of gross building area falls above the range established by the best comparables in this record and appears to be excessive. After considering the necessary adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
