

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Micah Dorn
DOCKET NO.: 24-27688.001-R-1
PARCEL NO.: 17-08-111-038-0000

The parties of record before the Property Tax Appeal Board are Micah Dorn, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,206
IMPR.: \$40,563
TOTAL: \$46,769

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story townhome of masonry exterior construction with 1,392 square feet of living area. The dwelling was built in 1996 and is approximately 28 years old. Features include a slab foundation and a 1-car garage. The property has an 833 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-95 townhomes of masonry exterior construction ranging in size from 1,392 to 1,546 square feet of living area. The comparables are 27 to 29 years old. Each comparable has a slab foundation and a 1-car garage. The comparables have improvement

assessments ranging from \$40,008 to \$45,414 or from \$28.74 to \$29.38 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$40,563.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$49,000. The subject property has an improvement assessment of \$42,794 or \$30.74 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-95 townhomes of masonry exterior construction with either 1,120 or 1,512 square feet of living area. The homes are either 29 or 30 years old. Each comparable has a full or partial basement, one fireplace, and a 1-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$36,015 to \$46,474 or from \$30.74 to \$34.64 per square foot of living area. The board of review asserts the assessed values per square foot for the submitted comparables support the subject's assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the board of review comparables which each feature a basement foundation, unlike the subject. Further, three of these comparables present additional differences from the subject in dwelling size and central air conditioning amenity.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are overall more similar, if not identical, to the subject in location, classification, age, dwelling size, and other features. The best comparables have improvement assessments ranging from \$40,008 to \$45,414 or from \$28.74 to \$29.38 per square foot of living area. The subject's improvement assessment of \$42,794 or \$30.74 per square foot of living area falls above the range established by the best comparables in this record and is excessive. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
