

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephanie Kitchen
DOCKET NO.: 24-27841.001-R-1
PARCEL NO.: 13-25-309-004-0000

The parties of record before the Property Tax Appeal Board are Stephanie Kitchen, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,059
IMPR.: \$80,941
TOTAL: \$110,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 119-year-old, two-story, multi-family dwelling of masonry construction with 3,976 square feet of living area. The property has a 4,687 square foot site and is located in Chicago, West Chicago Township, Cook County. Features of the home include a full basement, central air conditioning, and a two-car garage. The subject is classified as a Class 2-11 property under the Cook County Real Property Assessment Classification Ordinance. The record reflects that the subject property is owner-occupied.

The appellant contends assessment inequity with regard to the subject improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with varying degrees of similarity to the subject. The suggested comparable properties ranged in size from 4,216 to 4,792 square feet of living area. Each of the suggested properties had a full basement. None of the suggested comparables was listed as having central air conditioning. Three of the comparable properties had a garage of varying size and two had no garage. The appellant did not provide the distance of the comparable properties to that of the

subject property, but did indicate that the comparable properties had the same neighborhood code as the subject property. The comparables ranged in age from 112 to 121 years old. The comparables have improvement assessments ranging from \$13.99 to \$16.18 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$88,778.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$110,000. The subject property has an improvement assessment of \$80,941 or \$20.36 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables. The suggested comparable properties ranged in size from 2,662 to 5,427 square feet of living area. Each suggested property had a full basement. One of the suggested comparable properties had central air conditioning. Three of the comparable properties had garages of varying sizes and one had no garage. The board of review reported that one of the suggested comparables was located within a block of the subject property and three comparable properties were located within a quarter of a mile of the subject property. Each comparable had the same neighborhood code as the subject property. The comparables ranged in age from 116 to 130 years old. The comparables have improvement assessments ranging from \$20.65 to \$24.00 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes, "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const. art. IX, §4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by the appellant by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #3, and #4 and the board of review's comparables #2 and #3. Like the subject property, these comparables are class 2-11, multi-family dwellings. These comparable properties had similarly sized living areas, similar age, similar features and were located within a close degree of proximity to the subject property. In comparison, the board of review's comparables #1 and #4 differed more in

square feet of living area than the subject property and #1 had no garage and were therefore given less weight. The appellant's comparables #1, #2, and #5 were given less weight based on having distinguishable characteristics from the subject property, specifically #1 and #2 had no garage and #2 and #5 differed more in square feet of living area.

The best evidence comparables ranged in improvement assessment of \$15.02 to \$21.29 per square foot of living area. The subject's improvement assessment of \$20.36 per square foot of living area falls within the range established by the best comparables in this record. After considering these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
