

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Suzan Boatman
DOCKET NO.: 24-28630.001-R-1
PARCEL NO.: 13-25-402-017-0000

The parties of record before the Property Tax Appeal Board are Suzan Boatman, the appellant(s), by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$37,752
IMPR.: \$40,538
TOTAL: \$78,290

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 119-year-old, two-story, multi-family dwelling of masonry construction with 3,662 square feet of living area. Features of the home include a full basement and a two-car garage. The property has a 6,089 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a Class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties ranged in size from 3,364 to 3,944 square feet of living area and ranged in age from 119 to 134 years old. The appellant reported that the suggested comparables each had the same neighborhood code as the subject property but failed to state their proximity to the subject property. The appellant's comparables

each had a full basement and a two or three-car garage. The comparables have improvement assessments ranging from \$9.15 to \$11.07 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's total assessment to \$72,321.

The appellant also submitted a copy of the Cook County Board of Review's final decision disclosing the total assessment for the subject of \$96,000. The subject's assessment reflects a market value of \$960,000, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%. The appellant stated that the subject property has an improvement assessment of \$58,248 or \$15.91 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" but used the incorrect Property Index Number and address for the subject property.¹ Accordingly, no evidence was provided to support the board of review request that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds that the best evidence of assessment equity is each of the appellant's suggested comparables. Like the subject property, each of these comparables has a multi-story, multi-family dwelling with a full basement and a multi-car garage. The dwellings on these comparables are similar to the subject dwelling in age and living area size. These comparables are all in the same neighborhood as the subject. In comparison, the board of review's comparables are not similar to the subject in location, living area size, or age.

The best comparables have improvement assessments that range from \$9.15 to \$11.07 per square foot of living area. The subject's improvement assessment of \$15.91 per square foot of living area is above the range established by the best comparables in this record. After considering these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is not supported. Based on this record, the Board therefore finds that the appellant did demonstrate with clear and convincing evidence that the subject was inequitably assessed, and a reduction in the subject's assessment on this basis is warranted.

¹ The residential appeal filed in this matter is for a property located at 26564 W. Schubert Ave. in Chicago, West Chicago Township, with Property Index Number 13-25-402-017-0000. The board of review submitted evidence regarding a property located at 45 Meadowview Drive in Northfield, New Trier Township, with Property Index Number 05-30-201-046-0000.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
