FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Brian Passmore
DOCKET NO.: 24-28659.001-R-1
PARCEL NO.: 16-04-314-035-0000

The parties of record before the Property Tax Appeal Board are Brian Passmore, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$5,172
IMPR.:	$15,437
TOTAL:	$20,609

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 1,974 square feet of living area. The dwelling is approximately 107 years old. Features include a concrete slab foundation, 2 bathrooms, and a one-car garage. The property has a 4,310 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables, including property characteristics printouts, that are located within the subject's assessment neighborhood and from 0.2 of a mile to 1.1 miles from the subject. The comparables consist of class 2-05 two-story dwellings of frame exterior construction ranging in size from

1,956 to 1,992 square feet of living area. The dwellings are 109 to 134 years old. The comparables have full basements with finished area, either 1½, 2 or 2½ bathrooms, and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from $11,814 to $14,904 or from $6.04 to $7.48 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of $13,324 or $6.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $20,609. The subject property has an improvement assessment of $15,437 or $7.82 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the subject's assessment neighborhood and within ¼ of a mile from the subject. The comparables consist of class 2-05 two-story dwellings of frame exterior construction ranging in size from 1,656 to 2,066 square feet of living area. The dwellings are each 122 years old. Two comparables have full basements, with one having finished area, and two comparables have slab foundations. Each comparable has 2 or 2½ bathrooms, one comparable has central air conditioning and a two-car garage, and two comparables have a fireplace. The comparables have improvement assessments ranging from $13,929 to $18,694 or from $8.06 to $10.13 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review's comparables #1 and #3 due to differences in their location, dwelling size, and/or foundation type when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the board of review's comparables #2 and #4, which are overall most similar to the subject in location, design, age, dwelling size, bathroom count, and foundation type. These two comparables have improvement assessments of $18,533 and $18,694 or $9.05 and $10.13 per square foot of living area. The subject's improvement assessment of $15,437 or $7.82 per square foot of living area falls below the two best comparables in the record both in terms of overall improvement assessment and on a per-square-foot of living area basis. After considering adjustments to the best comparables for differences from the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
