

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marcelino Gonzalez
DOCKET NO.: 24-30246.001-R-1
PARCEL NO.: 16-29-221-027-0000

The parties of record before the Property Tax Appeal Board are Marcelino Gonzalez, the appellant, by attorney Andreas Mamalakis of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,334
IMPR.: \$18,480
TOTAL: \$22,814

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 1,848 square feet of gross building area. The building is approximately 111 years old. Features of the property include a full basement with finished area,¹ two full bathrooms and a 2-car garage. The property has a site with 4,032 square feet of land area and is located in Cicero, Cicero Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located

¹ The board of review disclosed the subject's basement is finished with a formal recreation room, which was not reported by nor was it refuted by the appellant.

within .33 of a mile from the subject property. The comparables are class 2-11 properties that are improved with one-story or two-story multi-family buildings of masonry exterior construction ranging in size from 2,010 to 2,117 square feet of gross building area. The buildings range in age from 100 to 110 years old. The comparables each have a full or partial basement, two full bathrooms and one or two fireplaces. Three comparables each have either a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$17,307 to \$19,506 or from \$8.61 to \$9.21 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment of \$16,373 or \$8.86 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,814. The subject property has an improvement assessment of \$18,480 or \$10.00 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within the subject's subarea. The comparables are class 2-11 properties that are improved with two-story multi-family buildings of frame or masonry exterior construction ranging in size from 1,864 to 2,492 square feet of gross building area. The buildings range in age from 101 to 133 years old. The comparables each have a full basement, one of which has finished area. Each comparable has two full bathrooms and either a 2-car or a 3-car garage. The comparables have improvement assessments that range from \$18,228 to \$24,462 or from \$9.24 to \$9.82 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #2, #3, #4 and #5, as well as board of review comparables #3 and #4 due to differences from the subject building in design and/or size. Additionally, the appellant's comparables #3 and #5 each lack a garage, a feature of the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #1, along with board of review comparables #1 and #2, which are overall more similar to the subject in building size and design. However, the Board finds these three comparables lack basement finish, a feature of the subject and board of review comparables #1 and #2 have older buildings when compared to the subject, suggesting upward adjustments would be required to make the comparables more equivalent to the subject. Conversely, the appellant's comparable #1 has two

fireplaces, unlike the subject and board of review comparable #1 has a larger garage when compared to the subject, suggesting downward adjustments for these differences would be necessary. Nevertheless, the comparables have improvement assessments ranging from \$17,307 to \$19,921 or from \$8.61 to \$9.78 per square foot of gross building area. The subject's improvement assessment of \$18,480 or \$10.00 per square foot of gross building area falls within the range established by the best comparables in the record in terms of overall improvement assessment but above the range on a per square foot of gross building area basis, which appears to be logical given the subject building has a finished basement. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
