

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Morry Sochat
DOCKET NO.: 24-31304.001-R-1
PARCEL NO.: 14-31-427-036-0000

The parties of record before the Property Tax Appeal Board are Morry Sochat, the appellant(s), by attorney Daria Palermo, of Flanagan/Bilton LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$25,682
IMPR.: \$62,318
TOTAL: \$88,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-unit dwelling of masonry construction with 2,736 square feet of living area. The dwelling was approximately 139 years old. Features of the home include a full basement. The property has a 2,952 square foot site and is located in Chicago, West Chicago Township, Cook County. The property is a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$880,000 as of January 1, 2024. The appraiser was prepared by a certified general real estate appraiser who asserted that the highest and best use of the property as improved was its present use. The appraiser inspected the property on January 21, 2025, and used a rental income and sales comparison approaches to valuation.

Under the rental income approach, the appraiser analyzed three comparable rental properties located within a 0.59-mile radius of the subject. Considering the data from the comparable rental properties, the appraiser estimated an average total rent for the subject property of \$6,550 per month. The appraiser estimated an annual total potential gross income of \$78,600. Based on the data found in the comparable rental properties, and including the appraisers derived gross rent multiplier, the appraiser arrived at a value under the income approach of \$917,000.

Under the sales comparison approach, the appraiser utilized three comparable sales properties located within a 0.59-mile radius of the subject property. The comparable properties sites ranged in size from 2,221 to 3,100 square feet of land area and from 3,576 to 3,896 square feet of building area. The properties are each improved with a multi-unit building of masonry construction that were from 129 to 136 years old. The comparable properties sold from February 2023 to August 2024 for prices ranging from \$850,000 to \$927,000. The appraiser adjusted, as applicable, for gross building area, unit breakdown, and parking. The appraiser concluded that based on the sales data and applying adjustments to the comparable sales for differences from the subject, the subject had a market value under the sales comparison approach of \$880,000.

In reconciling the two approaches to value, the appraiser gave more weight to the sales comparison approach to value stating that the "extreme low percentage of adjustments supports the appraised value." Therefore, the appraiser arrived at the final opinion of value for the subject property of \$880,000 as of January 1, 2024.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$98,104. The subject's assessment reflects a market value of \$981,040 or \$358.57 per square foot of living area, including land, when applying the level of assessments for class two property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales properties which sold from June 2023 to October 2023 for sales prices from \$575,000 to \$880,000 or from \$303.27 to \$346.18 per square foot of living area, land included in the sales prices. These properties were located within the same subarea as the subject. The improvements were from 118 to 135 years old and were from 1,890 to 2,542 in square feet of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The Board finds the appellant submitted a credible appraisal report with reasonable and logical adjustments for differences from the subject which was not challenged by the board of review. The comparable sales properties presented by the board of review lacked adjustments for significant differences when compared to the subject property. The subject's current assessment reflects a market value of \$981,040, which is higher than the appraised value of \$880,000. Based on the evidence presented, the Board finds the subject property is overvalued and a reduction commensurate with the appellant's request is warranted. Since market value has been established the level of assessment for class two property under the Cook County Real Property Assessment Classification Ordinance shall apply. (86 Ill.Admin.Code §1910.50(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
