FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Angela Supernaw
DOCKET NO.: 24-33206.001-R-1
PARCEL NO.: 14-07-221-020-0000

The parties of record before the Property Tax Appeal Board are Angela Supernaw, the appellant, by attorney Adam E. Bossov, of the Law Offices of Adam E. Bossov, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***A Reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$29,000
IMPR.:	$17,456
TOTAL:	$46,456

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story building of masonry exterior construction with 1,824 square feet of gross building area. The building is approximately 116 years old and features a full basement. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on nine equity comparables located within the subject's assessment neighborhood and within 0.72 of a mile from the subject property. Five of these comparables are located on the same street as the subject. The comparables are improved with 2-story, class 2-11 buildings of masonry exterior construction ranging in size from 2,160 to 2,486 square feet of gross building area. The

buildings are from 97 to 118 years old. Each comparable has a full basement and from a 1-car to a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from $20,952 to $23,906 or from $9.10 to $9.76 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to $17,456.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $56,800. The subject property has an improvement assessment of $27,800 or $15.24 per square foot of gross building area.

The board of review did not provide any evidence in support of its contention of the correct assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The appellant submitted nine equity comparables for the Board's consideration, as the board of review failed to provide any suggested comparables. The Board gives diminished weight to the appellant's comparables #1 through #7 which are substantially larger buildings than the subject. Further, the appellant's comparables #1 and #2 also present additional differences from the subject in age and central air conditioning amenity, respectively.

The Board finds the best evidence of assessment equity to be the appellant's comparables #8 and #9 which are relatively similar to the subject in location, design/class, age, and size. However, each of these comparables have garage amenities, which the subject lacks, suggesting downward adjustments for this difference would be appropriate to make them more equivalent to the subject. These comparables have improvement assessments of $20,952 and $21,161 or $9.70 and $9.76 per square foot of building area, respectively. The subject's improvement assessment of $27,800 or $15.24 per square foot of building area falls above the two best comparables in this record and appears to be excessive. After considering appropriate adjustments to the two best comparables for differences from the subject, the Board finds the subject's improvement was inequitably assessed and a reduction in the subject's assessment, commensurate with the appellant's request, is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
