

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Audrey Doshi
DOCKET NO.: 24-33779.001-R-1
PARCEL NO.: 22-34-300-031-0000

The parties of record before the Property Tax Appeal Board are Audrey Doshi, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$30,004
IMPR.: \$34,480
TOTAL: \$64,484

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 5,000 square feet of living area. The dwelling is approximately 34 years old. Features of the home include a basement, central air conditioning, a fireplace and a 3-car garage. The property has an approximately 67,082 square foot site and is located in Lemont, Lemont Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity, with respect to the land assessment as the basis of the appeal. The appellant provided a narrative summary of the incorrect land assessed value that was assigned to the subject property in 2023 and carried over into 2024. In support of this argument the appellant submitted information on five equity comparables, with four located in the same assessment neighborhood code as the subject property and one location outside the subject's assessment neighborhood code. Comparable #5 is located next door to the subject.

The comparables have sites that range in size from 52,228 to 203,599 square feet of land area. The comparables have land assessments that range from \$16,974 to \$47,964 or from \$0.24 to \$0.51 per square foot of land area. Based on this evidence, the appellant requested the subject's land assessment be reduced to \$24,471 or \$0.36 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$77,603. The subject property has an improvement assessment of \$43,603 or \$0.65 per square foot of land area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables have sites that range in size from 40,597 to 56,932 of land area. The comparables have land assessments that range from \$26,388 to \$37,006 or \$0.65 per square foot of land area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine land assessment comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #2 and the board of review's comparables which are less similar to the subject in land size.

The Board finds the best evidence of land assessment equity to be the appellant's comparables #3, #4 and #5 which are more similar to the subject in land size. The Board further finds appellant's comparable #5 is located next door to the subject and has an identical land size and was given most weight. These comparables have land assessments ranging from \$23,003 to \$34,480 or from \$0.35 to \$0.51 per square foot of land area. The subject's land assessment of \$43,603 or \$0.65 per square foot of land area falls above the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
