

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jason Schroeder
DOCKET NO.: 24-33796.001-R-1
PARCEL NO.: 24-05-402-006-0000

The parties of record before the Property Tax Appeal Board are Jason Schroeder, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,853
IMPR.: \$16,147
TOTAL: \$20,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame and masonry exterior construction with 1,224 square feet of living area. The dwelling is approximately 68 years old. Features include a crawl space foundation, central air conditioning, and a 2-car garage. The property has a 6,700 square foot site and is located in Oak Lawn, Worth Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood and from 0.2 of a mile to 1.1 miles from the subject property. The comparables are improved with 1-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,138 to 1,510 square

feet of living area. The dwellings are either 69 or 72 years old. Each comparable has a crawl space or slab foundation, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from \$13,872 to \$19,802 or from \$12.19 to \$14.03 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$15,912 or \$13.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,001. The subject property has an improvement assessment of \$19,148 or \$15.64 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables located within the subject's assessment neighborhood on the same block or ¼ of a mile from the subject property. The comparables are improved with 1-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,141 to 1,167 square feet of living area. The dwellings are either 67 or 69 years old. Each comparable has a full or partial basement and a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$18,832 to \$23,148 or from \$16.15 to \$19.85 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #3 which is less similar to the subject in dwelling size than other comparables in this record. The Board also gives less weight to the board of review comparables which feature basement foundations, unlike the subject which has a crawl space foundation, and/or lack central air conditioning, which the subject features.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, and #4 which are overall more similar to the subject in design/class, age, dwelling size, and other features. The best comparables have improvement assessments ranging from \$13,872 to \$18,261 or from \$12.19 to \$14.03 per square foot of living area. The subject property's improvement assessment of \$19,148 or \$15.64 per square foot of living falls above the range established by the best comparables in this record and appears to be excessive. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
