Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject properties consist of sixteen townhouses. Each is a twenty-six-year-old, three-story masonry structure. The appellant provides information on living area for twelve of the townhouses. They range from 1,518 to 2,437 square feet of living area. All sixteen townhouses are collectively on a 22,927 square foot site in Lakeview Township, Chicago, Cook County. Each is classified as 2-95 under the Cook County Real Property Assessment Classification Ordinance. Features of the buildings include two full bathrooms, full basements and two-car garages. For the twelve townhouses that the appellant provides assessment information, they have assessments ranging from $22.12 to $31.60 per square foot of living area.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with varying degrees of similarity to the subject properties. The properties offered by the appellant are two-story, class 2-95 buildings of masonry construction, ranging in age from thirty-three to fifty-nine years-old and ranging in size from 1,464 to 2,864 square feet of living area. All have one full bathroom and a full basement. Two have garages. The record contains no information on the proximity of the comparables to the subject property. The comparable properties range in assessed value from $14 to $18.99 per square foot of living area. Based on this evidence, the appellant is requesting a total assessment amount for all sixteen townhouses of $649,299.

The board of review submitted its "Board of Review Notes on Appeal" stating the assessment for one of the townhouses, 14-07-413-043-000, as $66,000 including an improvement assessment of $41,364 or $22.12 per square foot of living area. The board of review does not provide any information on the other fifteen townhouses which are the subject of the appeal.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables. The properties offered by the board of review are three-story buildings of frame and masonry construction, all twenty-eight years of age with 2,432 square feet of living area. Each has two full bathrooms and a half bathroom. Each is on a slab foundation. One has a garage. The board of review reports that all are located on the same block as subject property.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes, "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const. art. IX, §4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by the appellant by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of

proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant **did not** meet this burden of proof and a reduction in the subject's assessment **is not** warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 and the board of review's comparables. Those properties have living area sizes that are within the range of living areas of the sixteen subject properties. In contrast, appellant's comparables #3, #4 and #5 are 54 to 973 square feet smaller in living area than all the subject properties. The Board finds that those comparables are afforded less weight based on this factor. The best evidence comparables have improved assessed values ranging from $14 to $42.98 per square foot. The assessments for the twelve townhouses for which we have square foot and assessment evidence, ranging in improvement assessment from $22.12 to $31.60 per square foot, fall within the range established by the best comparables in the record. Based on this record the Board finds the appellant **did not** demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
