

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jadwiga Leja
DOCKET NO.: 24-35277.001-R-1
PARCEL NO.: 24-19-122-049-0000

The parties of record before the Property Tax Appeal Board are Jadwiga Leja, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,892
IMPR.: \$29,851
TOTAL: \$33,743

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry exterior construction with 1,677 square feet of living area. The dwelling is approximately 17 years old. Features of the home include a partial basement with finished area, central air conditioning, and a 2-car garage. The property has a 6,486 square foot site and is located in Worth, Worth Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on seven equity comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-34, multi-level dwellings of frame and masonry exterior construction ranging in size from 1,056 to 1,396 square feet of living area. The homes range in age from 35

to 63 years old. Each comparable has a partial basement with finished area. Three comparables each have central air conditioning. Five comparables each have a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$13,900 to \$23,015 or from \$10.75 to \$16.49 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted the board of review final decision disclosing the total assessment for the subject of \$33,743. The subject property has an improvement assessment of \$29,852 or \$17.80 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-34, multi-level dwellings of frame and masonry exterior construction ranging in size from 1,632 to 1,725 square feet of living area. The homes range in age from 19 to 21 years old. Each comparable has a partial basement with finished area, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from \$29,010 to \$32,985 or from \$17.78 to \$19.72 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eleven suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to differences relative to the subject in age, dwelling size, central air conditioning, and/or garage amenity.

The Board finds the best evidence of assessment equity to be the board of review comparables which are overall most similar to the subject in location, design/class, age, dwelling size, and other features. These comparables have improvement assessments ranging from \$29,010 to \$32,985 or from \$17.78 to \$19.72 per square foot of living area. The subject's improvement assessment of \$29,852 or \$17.80 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
