

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Martha Maugh
DOCKET NO.: 24-35426.001-R-1
PARCEL NO.: 14-29-302-189-0000

The parties of record before the Property Tax Appeal Board are Martha Maugh, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,688
IMPR.: \$50,096
TOTAL: \$71,784

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story townhome of masonry exterior construction with 1,751 square feet of living area. The dwelling was built in 1989 and is approximately 35 years old. Features include a slab foundation, central air conditioning, one fireplace, and a 1-car garage. The property has a 1,166 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-95 townhomes of masonry or frame and masonry exterior construction ranging in size from 1,710 to 1,867 square feet of living area. The comparables are 34 or 37

years old. Each comparable has a slab foundation, central air conditioning, and a 1-car garage. Three comparables each have a fireplace. The comparables have improvement assessments ranging from \$48,178 to \$54,173 or from \$28.17 to \$29.02 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$49,833.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$75,000. The subject property has an improvement assessment of \$53,312 or \$30.45 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 3-story, class 2-95 townhomes of masonry exterior construction with either 1,751 or 1,867 square feet of living area. The homes are 34 to 36 years old. Each comparable has a slab foundation, central air conditioning, one fireplace, and a 1-car garage. The comparables have improvement assessments ranging from \$50,047 to \$53,067 or from \$28.42 to \$28.64 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds a reduction in the subject's assessment is warranted based on the evidence in this record.

The parties submitted eight equity comparables for the Board's consideration. The Board finds the parties' comparables are each similar, if not identical, to the subject in location, classification, age, and dwelling size with varying degrees of similarity in other features. The comparables have improvement assessments ranging from \$48,178 to \$54,173 or from \$28.17 to \$29.02 per square foot of living area. The Board gives greatest weight to board of review comparables #1, #2, and #3 which are identical or nearly identical to the subject in overall property characteristics with improvement assessments ranging from \$50,047 to \$50,140 or from \$28.58 to \$28.64 per square foot of living area. The subject's improvement assessment of \$53,312 or \$30.45 per square foot of living area falls within the range established by the comparables in this record on an overall basis but above the range on a per square foot basis, as well as falling above the range established by the comparables given most weight by the Board. After considering adjustments to the comparables for differences from the subject, the Board finds the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
