Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 3,685 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a basement, central air conditioning, two fireplaces and a 2-car garage. The property has an approximately 22,400 square foot site and is located in Barrington, Barrington Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-78 dwellings of frame exterior construction ranging in size from 3,094 to 3,513 square feet of living area. The homes range in age from 14 to 23 years

old. Each comparable has a basement, central air conditioning, one or two fireplaces and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$61,453 to \$72,508 or from \$19.83 to \$20.68 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$75,395 or \$20.46 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for one of the subject's two parcels. The appellant submitted a copy of the "Cook County Board of Review" final decision which disclosed the subject has a combined total assessment of \$106,750. The subject has an improvement assessment of \$84,350 or \$22.89 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-78 dwellings of frame or masonry exterior construction ranging in size from 3,589 to 3,695 square feet of living area. The homes range in age from 10 to 22 years old. Each comparable has a basement, with three having finished area, from one to three fireplaces and a 1-car or a 2-car garage. Three comparables have central air conditioning. The comparables have improvement assessments ranging from \$84,763 to \$113,100 or from \$22.94 to \$31.51 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3 and #4 and the board of review's comparable #3 which are less similar to the subject in dwelling size, or lack central air conditioning and finished basement, both of which are features of the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and the board of review's comparables #1, #2 and #4 which are more similar to the subject in location, age, design, dwelling size and other features. These comparables have improvement assessments ranging from \$72,508 to \$113,100 or from \$20.64 to \$31.51 per square foot of living area. The subject's improvement assessment of \$84,350 or \$22.89 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
