

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 3022 North Clifton, LLC
DOCKET NO.: 24-35689.001-R-1
PARCEL NO.: 14-29-207-038-0000

The parties of record before the Property Tax Appeal Board are 3022 North Clifton, LLC, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$43,999
IMPR.: \$40,655
TOTAL: \$84,654

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story, multi-family building of frame exterior construction with 2,946 square feet of gross building area. The building was built in 1888 and is approximately 136 years old. The building features a crawl space foundation and a 2-car garage. The property has a 3,025 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with class 2-11 multi-family buildings of frame exterior construction ranging in size from 2,603 to 3,370 square feet of gross building area. The buildings are from 127 to 139 years

old. Two comparables each have a full basement finished with an apartment and two comparables each have a slab or crawl space foundation. Three comparables each have a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$35,502 to \$46,501 or from \$12.91 to \$13.93 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$88,000. The subject property has an improvement assessment of \$44,001 or \$14.94 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 3-story, class 2-11 multi-family buildings of frame exterior construction ranging in size from 2,460 to 2,937 square feet of gross building area. The buildings are from 127 to 137 years old. Each comparable has a full basement, one of which is finished with a formal recreation room. One comparable has central air conditioning. One comparable has one fireplace. Three comparables each have a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$40,503 to \$50,001 or from \$16.19 to \$17.21 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #2, as well the board of review comparables, which feature basement foundations, unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4 which are overall more similar to the subject in location, classification, age, dwelling size, and other features. The two best comparables have improvement assessments of \$35,502 and \$46,501 or \$13.64 and \$13.93 per square foot of gross building area, respectively. The subject's improvement assessment of \$44,001 or \$14.94 per square foot of gross building area falls above the two best comparables in this and is excessive. After considering adjustments to the two best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
