

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sushil Kumar
DOCKET NO.: 24-35761.001-R-1
PARCEL NO.: 14-30-100-001-0000

The parties of record before the Property Tax Appeal Board are Sushil Kumar, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,116
IMPR.: \$56,000
TOTAL: \$88,116

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, mixed-use building of masonry exterior construction with 4,768 square feet of building area. The building was built in 1895 and is approximately 129 years old. Features include a full basement, three full bathrooms, three half bathrooms, central air conditioning, and a 2-car garage. The property has a 2,590 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables, one of which is located within the subject's assessment neighborhood. The comparables are located from 0.1 of a mile to 1.3 miles from the subject property. The comparables are improved with class 2-12 mixed-use buildings of masonry exterior construction

ranging in size from 4,290 to 5,187 square feet of building area. The comparables are from 122 to 158 years old. Each comparable has a full basement, two or three full bathrooms, and central air conditioning. Three comparables each have one or two half bathrooms. Two comparables each have a 3.5 or 4-car garage. The comparables have improvement assessments ranging from \$46,003 to \$56,150 or from \$9.86 to \$11.07 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$49,921 or \$10.47 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$96,536. The subject property has an improvement assessment of \$64,420 or \$13.51 per square foot of building area.

The board of review did not submit any evidence in support of its contention of the correct assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The appellant submitted four suggested equity comparables for the Board's consideration, as the board of review failed to provide any suggested comparables. The Board finds the appellant's comparables to be relatively similar to the subject in classification, age, and building size with varying degrees of similarity in bathroom count, garage amenity, and other features. These comparables have improvement assessments ranging from \$46,003 to \$56,150 or from \$9.86 to \$11.07 per square foot of building area. The Board gives most weight to the appellant's comparable #1 which is located most proximate to the subject and is a larger dwelling than the subject, although lacking a garage amenity, with an improvement assessment of \$50,500 or 9.86 per square foot of living area. The subject's improvement assessment of \$64,420 or \$13.51 per square foot of building area falls above the range established by the comparables in this record, as well as the comparable given most weight by the Board, and appears to be excessive. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
