

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Arica Williams
DOCKET NO.: 24-37163.001-R-1
PARCEL NO.: 14-16-304-043-1004

The parties of record before the Property Tax Appeal Board are Arica Williams, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,368
IMPR.: \$20,132
TOTAL: \$28,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a single condominium unit on the ground floor of a four-story building containing four other condominiums. The condominium unit, classified as 2-99 under the Cook County Real Property Assessment Classification Ordinance, is 1,144 square feet in living area and has a 17% ownership interest in the common elements of the building. The building is approximately 112 years-old and is located on a 5,500 square foot site in Lakeview Township, Chicago, Cook County.

The appellant contends overvaluation as a basis of the appeal. In support of this argument, the appellant submitted an appraisal estimating the subject property had a market value of \$285,000 as of January 1, 2024. The appraisal was prepared by John Tsiaousis, a licensed certified residential real estate appraiser who inspected and photographed the subject property and reported its living area as 1,144 square feet.

The appraiser relied on the sales comparison approach in his evaluation. The appraiser used sales of three comparable properties, one located within three-quarters of a mile from the subject property, one within a half-mile and one within a quarter-mile of the subject. The comparable sales took place from February 27, 2023, to July 28, 2023, for prices ranging from \$240,000 to \$275,000 or from \$230.11 to \$241.23 per square foot. The appraiser adjusted the sales prices to account for differences between the subject and the comparables in terms of living area and outdoor porch space. Photographs of the subject dwelling's exterior and interior were included with the appraisal. Based on this evidence, the appellant is requesting an assessment amount of \$36,868.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$39,440 when using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%. In support of the current assessment, the board of review submitted data on three sales of units in the same building as the subject property. The comparable sales occurred from December 22, 2021, to December 8, 2023. The record is silent as to the comparables' living area or price per square foot.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds that the best evidence of the subject's market value is the appraisal submitted by the appellant. That appraisal employed the sales comparison approach and relied upon recent sales of three suggested comparable properties. The appraisal adjusted the sales price of the suggested comparable properties to account for differences between them and the subject, considering such factors as gross living area, design/features, lot size, age and location. In contrast, the board of review's evidence consists of unadjusted raw sales figures with no reference to living area. The Board also notes that, in contrast to the board of review, the appraiser inspected, photographed and measured the subject property.

Based on the appraiser's final reconciliation, the Board finds that the subject property had a fair market value of \$285,000 as of the assessment date at issue. Since market value has been established, the level of assessment for the class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10% shall apply here. (86 Ill.Admin.Code §1910.50(c)(2)). Based on the evidence, the Board therefore finds the appellant has proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
