

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Stemberk  
DOCKET NO.: 24-37360.001-R-1  
PARCEL NO.: 15-28-428-014-0000

The parties of record before the Property Tax Appeal Board are Michael Stemberk, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$7,854  
**IMPR.:** \$48,530  
**TOTAL:** \$56,384

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story apartment building of masonry exterior construction with 4,333 square feet of gross building area. The building is approximately 66 years old and features a full basement and four-car garage. The property has a 9,520 square foot site and is located in LaGrange Park, Proviso Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables consist of one-story or two-story class 2-11 buildings of masonry exterior construction ranging in size from 3,897 to 4,870 square feet of gross building area. The buildings are 48 or 68 years old. One buildings has a concrete slab foundation and three comparables each have a full basement. One

comparable has central air conditioning and a two-car garage. The comparables have improvement assessments ranging from \$38,814 to \$48,225 or from \$9.66 to \$10.33 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$43,157 or \$9.96 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$56,384. The subject property has an improvement assessment of \$48,530 or \$11.20 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood, two of which are within .25 of a mile of the subject. The comparables consist of two-story class 2-11 buildings of masonry exterior construction ranging in size from 3,888 to 4,622 square feet of gross building area. The buildings range from 62 to 71 years old. Each building has a full or partial basement, one of which is finished with an apartment, and one comparable has a three-car garage. The comparables have improvement assessments ranging from \$48,833 to \$52,143 or from \$11.28 to \$13.04 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables #1, #2, and #3, which differ from the subject in age, design, or foundation. The Board finds the appellant's comparable #4 and the comparables presented by the board of review are similar to the subject in age, design, building size, and some features. These comparables have improvement assessments that range from \$45,657 to \$52,143 or from \$10.33 to \$13.04 per square foot of gross building area. The subject's improvement assessment of \$48,530 or \$11.20 per square foot of gross building area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
