

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Hunter  
DOCKET NO.: 24-38316.001-R-1  
PARCEL NO.: 04-09-100-047-0000

The parties of record before the Property Tax Appeal Board are David Hunter, the appellant, by attorney Jeremy Rosenfeld, of Robert H. Rosenfeld & Associates, LLC, in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$30,000  
**IMPR.:** \$41,453  
**TOTAL:** \$71,453

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of frame and masonry exterior construction with 2,259 square feet of living area. The dwelling is approximately 64 years old. Features of the home include a partial basement, central air conditioning, and a two-car garage. The property has a 20,000 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code and .3 or .6 of a mile from the subject. The comparables consist of class 2-04 one-story dwellings of frame and masonry exterior construction. The comparables range in age from 56 to 59 years old. The dwellings range in

size from 2,229 to 2,555 square feet of living area. Each comparable has a full or partial basement, central air conditioning, one or two fireplaces, and from a two-car to a three-car garage. The comparables have improvement assessments ranging from \$34,699 to \$38,550 or from \$15.09 to \$16.28 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$35,557 or \$15.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$71,453. The subject property has an improvement assessment of \$41,453 or \$18.35 per square foot of living area.

In response to the appellant's evidence, the board of review contends its comparables are more similar to the subject in age, dwelling size and proximity.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and ¼ of a mile from the subject. The comparables consist of class 2-04 one-story dwellings of frame and masonry exterior construction which range in age from 60 to 64 years old. The dwellings range in size from 2,187 to 2,280 square feet of living area. Each comparable has a partial basement, central air conditioning, and either a 1.5-car or a 2-car garage. Three homes each have a fireplace. The comparables have improvement assessments ranging from \$42,253 to \$44,849 or from \$18.80 to \$19.67 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board which were located in the same neighborhood code as the subject. The Board has given reduced weight to appellant's comparable #1, due to a substantial difference in dwelling size when compared to the subject.

The Board finds the best equity comparables in the record are appellant's comparables #2, #3 and #4 as well as the board of review comparables, which range in age from 56 to 64 years old and thus bracket the subject's age. The homes are each similar to the subject in design, foundation type and some amenities. Adjustments to these comparables are necessary for differences in dwelling size, fireplace feature and/or garage capacity when compared to the subject in order to make them more equivalent to the subject. The best comparables have improvement assessments ranging from \$34,699 to \$44,849 or from \$15.34 to \$19.67 per square foot of living area. The subject's improvement assessment of \$41,453 or \$18.35 per square foot

of living area is within the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
