## Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

## Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,080 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a basement with finished area,[1] central air conditioning, and a 2-car garage. The property has a 3,700 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four comparables located within the same assessment neighborhood as the subject property and from 0.77 of a mile

[1] The board of review indicated the subject's basement has finished area, which was not reported nor refuted by the appellant.

to 1.81 miles from the subject. The comparables consist of class 2-78, 2-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,087 to 2,476 square feet of living area. The dwellings are 0 to 59 years old. Each comparable has a full basement and a 2-car garage. Three comparables each have central air conditioning, and one comparable has a fireplace. The comparables have improvement assessments that range from $12,688 to $37,744 or from $5.24 to $15.24 per square foot of living area. The appellant requested the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $39,000. The subject property has an improvement assessment of $34,375 or $16.53 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same assessment neighborhood as the subject. Two comparables are located within the subject's block and/or approximately ¼ of a mile from the subject. The comparables consist of class 2-78, 2-story dwellings of masonry exterior construction ranging in size from 2,080 to 2,604 square feet of living area. The dwellings are 7 to 18 years old. Comparables #1 and #4 have slab foundations, and comparables #2 and #3 have full basements with finished area. Each comparable has central air conditioning, one comparable has a fireplace, and three comparables each have a 2-car garage. The comparables have improvement assessments that range from $35,375 to $43,344 or from $16.65 to $17.60 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

## Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2 and #4 due to differences in their age, dwelling size, and/or a lack of central air conditioning when compared to the subject. The Board also gives less weight to the board of review's comparables #1 and #4 which differ from the subject in dwelling size and lack a basement foundation and/or a garage amenity, unlike the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables, which are most similar, and/or identical or nearly identical, to the subject in age, dwelling size, foundation type, and most features. These three comparables have improvement assessments that range from $30,156 to $37,196 or from $14.45 to $17.01 per square foot of living area. The subject's improvement assessment of $34,375 or $16.53 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the

best comparables for differences from the subject, the Board finds the subject's improvement assessment is well supported and a reduction is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
