

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bill Kottaras  
DOCKET NO.: 24-40597.001-R-1  
PARCEL NO.: 12-27-222-040-0000

The parties of record before the Property Tax Appeal Board are Bill Kottaras, the appellant, by Brian S. Maher, attorney-at-law of Weis, DuBrock, Doody & Maher in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,050  
**IMPR.:** \$17,728  
**TOTAL:** \$21,778

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story dwelling of frame and masonry exterior construction containing 1,097 square feet of living area. The dwelling is approximately 76 years old. Features of the property include a full unfinished basement, central air conditioning, one bathroom, and a 2-car garage. The property has a 4,500 square foot site located in Franklin Park, Leyden Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables consisting of class 2-05 properties improved with two-story dwellings of masonry or frame and masonry exterior construction that range in size from 1,205 to 1,652 square feet of living area. The homes are from 68 to 78 years old. Each property has a full or partial basement,

one to two bathrooms, and a 2-car garage. Two comparables have central air conditioning. The comparables have the same assessment neighborhood code as the subject property. Their improvement assessments range from \$13,480 to \$20,050 or from \$11.19 to \$12.66 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$13,098.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,778. The subject property has an improvement assessment of \$17,728 or \$16.16 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-05 properties improved with two-story dwellings of frame and masonry exterior construction that range in size from 1,012 to 1,067 square feet of living area and are 78 or 79 years old. Each comparable has a full or partial unfinished basement, one bathroom, and a 2-car garage. Three comparables have central air conditioning. These properties have the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$17,707 to \$18,688 or from \$16.74 to \$17.51 per square foot of living area. The board of review contends the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the assessed value as equitable.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in dwelling size than are the comparables provided by the appellant. The Board of review comparables are also similar to the subject in location, exterior construction, age, and most features. These comparables have improvement assessments that range from \$17,707 to \$18,688 or from \$16.74 to \$17.51 per square foot of living area. The subject's improvement assessment of \$17,728 or \$16.16 per square foot of living area falls within the range of the total improvement assessments but below the range on a per square foot of living area basis as established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
