Subject only to the State multiplier as applicable.

## Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

## Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 2,444 square feet of living area. The dwelling is approximately 23 years old. Features include a full basement with finished area,[1] central air conditioning, one fireplace and a 2-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-78 dwellings of frame exterior construction ranging in size from 2,432 to 2,753

[1] The board of review disclosed the subject has a basement recreation room, which was not refuted by the appellant.

square feet of living area. The homes are from 13 to 25 years old. The comparables each have a full basement; however, no data was provided by the appellant concerning finished basement area. Each comparable has central air conditioning, one fireplace, and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from $66,090 to $75,872 or from $27.18 to $28.40 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced.

The appellant submitted a copy of the Cook County Board of Review final decision for the 2024 tax year disclosing the total assessment for the subject property of $113,848. The subject property has an improvement assessment of $82,755 or $33.86 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal." In support of its contention of the correct assessment, the board of review submitted information on three comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-78 dwellings of frame exterior construction ranging in size from 2,740 to 2,867 square feet of living area. The homes are from 1 to 14 years old. Each comparable has a full basement with finished area, central air conditioning, and a 2-car garage. Two comparables each have one or two fireplaces. The comparables have improvement assessments ranging from $98,285 to $103,429 or from $34.83 to $36.10 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

## Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2, #3, and #4, as well as the board of review comparables #2 and #3, which are less similar to the subject in dwelling size and/or age than the other comparables in this record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #5, as well as board of review comparable #1, which are overall more similar to the subject in location, design/class, age, dwelling size, and features. However, the two appellant's comparables lack any reported finished basement area, in contrast to the subject, suggesting upward adjustments are needed to make these properties more equivalent to the subject. The best comparables have improvement assessments ranging from $66,090 to $98,906 or from $27.18 to $36.10 per square foot of living area. The subject's improvement assessment of $82,755 or $33.86 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences

when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
