

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Havel
DOCKET NO.: 24-41744.001-R-1
PARCEL NO.: 03-21-213-031-0000

The parties of record before the Property Tax Appeal Board are Joseph Havel, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,470
IMPR.: \$39,506
TOTAL: \$47,976

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and brick exterior construction with 2,788 square feet of living area. The dwelling is approximately 39 years old. Features of the home include a basement, central air conditioning, and a 2-car garage with 400 square feet of building area. The property has a 7,700 square foot site and is located in Arlington Heights, Wheeling Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located within 400 feet of the subject, one of which is on the same street as the subject. The comparables are improved with 2-story homes ranging in size from 2,652 to 3,570 square feet of living area. The dwellings are 38 to 43 years old. Each home has a basement, central air conditioning, and a 400 or a 600 square foot garage. The comparables have

improvement assessments ranging from \$34,291 to \$46,467 or from \$12.50 to \$13.02 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$34,850.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$47,976. The subject property has an improvement assessment of \$39,506 or \$14.17 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject and on the same block or 0.25 of a mile from the subject, one of which is on the same street as the subject. The comparables are improved with 2-story homes with 2,718 or 2,736 square feet of living area. The dwellings are 38 to 40 years old. Each home has a basement, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from \$39,208 to \$42,316 or from \$14.33 to \$15.57 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant argued the subject is located on a cul-de-sac that has six homes. The appellant contended the board of review submitted the highest assessed of these homes as a comparable, which is \$2.57 per square foot higher compared to the lowest assessed home in the cul-de-sac. The appellant seeks an improvement assessment that is the average of the appellant's comparables on a per square foot basis.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #3, which are 28% and 19% larger homes than the subject, respectively.

The Board finds the best evidence of assessment equity to be appellant's comparable #2 and the board of review comparables, which are more similar to the subject in dwelling size, age, location, and features. These comparables have improvement assessments that range from \$34,291 to \$42,316 or from \$12.93 to \$15.57 per square foot of living area. The subject's improvement assessment of \$39,506 or \$14.17 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
