

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Geoffrey Robinson
DOCKET NO.: 24-42368.001-R-1
PARCEL NO.: 13-13-123-022-0000

The parties of record before the Property Tax Appeal Board are Geoffrey Robinson, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,312
IMPR.: \$80,211
TOTAL: \$93,523

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,169 square feet of living area. The dwelling is approximately 109 years old. Features of the home include a full basement, central air conditioning, a fireplace and a 2-car garage. The property has a 3,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject property. The comparables are improved with two-story class 2-05 dwellings of frame or frame and masonry exterior construction ranging in size from 1,989 to 2,112 square feet of living area and in age

from 102 to 116 years old. Each comparable has a full basement and central air conditioning. Two comparables each have a fireplace, and four comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$54,460 to \$58,428 or from \$25.96 to \$27.98 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$59,886 or \$27.61 per square foot of living area.

The appellant provided a copy of the Cook County Board of Review final decision disclosing a total assessment for the subject property of \$93,523. The subject has an improvement assessment of \$80,211 or \$36.98 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the subject's assessment neighborhood and within the subject's block or approximately ¼ of a mile from the subject property. The comparables are improved with two-story class 2-05 dwellings of masonry exterior construction ranging in size from 1,770 to 2,066 square feet of living area and are 109 or 110 years old. The comparables each have a full basement and either a 1.5-car or a 2-car garage. Two comparables each have central air conditioning, and two comparables each have a fireplace. The comparables have improvement assessments that range from \$77,688 to \$94,688 or from \$40.76 to \$51.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #4 as well as the board of review's comparable #1 due to differences from the subject in dwelling size, a lack of central air conditioning, and/or a lack of a garage amenity, both of which are features of the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are located within the subject's assessment neighborhood and are also relatively similar to the subject in age, dwelling size and most features. These six comparables have improvement assessments ranging from \$54,460 to \$94,688 or from \$25.96 to \$51.46 per square foot of living area. The subject's improvement assessment of \$80,211 or \$36.98 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement

was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
