FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Xudong Chen
DOCKET NO.: 24-42583.001-R-1
PARCEL NO.: 13-24-131-054-0000

The parties of record before the Property Tax Appeal Board are Xudong Chen, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$18,234
IMPR.:	$79,766
TOTAL:	$98,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame exterior construction with 2,330 square feet of living area. The home is approximately 7 years old. Features include a basement with finished area, central air conditioning, a fireplace, and a 2-car garage. The property has a 2,941 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject. The appellant described the comparables' proximity to the subject as "unknown." The comparables are improved with 2-story, class 2-78 dwellings of frame, masonry or frame and masonry exterior

construction ranging in size from 2,160 to 2,496 square feet of living area. The homes are 33 to 62 years old. The comparables each have a basement, with four having finished area, and a 2-car garage. Four comparables each have central air conditioning, and one comparable has a fireplace. The comparables have improvement assessments ranging from $44,470 to $45,625 or from $18.22 to $20.66 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to $46,879 or $20.12 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $98,000. The subject property has an improvement assessment of $79,766 or $34.23 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood, block and street as the subject. The comparables are improved with 2-story, class 2-78 dwellings of frame exterior construction ranging in size from 2,244 to 2,344 square feet of living area. The homes are 3 to 8 years old. The comparables each have a basement with finished area, central air conditioning, a fireplace, and a 2-car garage. The comparables have improvement assessments ranging from $81,286 to $89,741 or from $34.89 to $39.99 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to the dwellings' considerably older ages when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the board of review's comparables which are overall most similar, if not identical, to the subject in location, design, age, dwelling size and most features. These four comparables have improvement assessments ranging from $81,286 to $89,741 or from $34.89 to $39.99 per square foot of living area. The subject's improvement assessment of $79,766 or $34.23 per square foot of living area falls below the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
