The parties of record before the Property Tax Appeal Board are Terra Building, Inc., the appellant(s), by attorney William I. Sandrick, of Sandrick Law Firm, LLC in Homewood; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two property index numbers (PINs) and consists of a one-story, and part two-story, building of masonry construction with 5,625 square feet of building area. The building was constructed in 1966. The property has a 5,458 square foot site and is located in Chicago, Lake Township, Cook County. The property is a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$335,000 as of January 1, 2024. The appraisal was prepared by a certified general real estate appraiser who asserted that the highest and best use of the subject property as improved is its current use. The appraiser inspected the property on December 16, 2024, and used the sales comparison

approach to valuation. As the subject property is corporate owned it is not an owner-occupied residence.

Under the sales comparison approach, the appraiser utilized five comparable sales properties for which the appraiser did not provide proximity to the subject. The comparable properties sites ranged in size from 3,808 to 6,406 square feet of building area. The properties are each improved with a mixed-use building similar in use to the highest and best use of the subject, of masonry construction, that were of unknown age. The comparable properties sold from March 2022 to February 2024 for prices ranging from \$155,000 to \$400,000 or from \$40.70 to \$76.34 per square foot of living area, land include in the sales prices. The appraiser adjusted, if applicable, for size, condition, and land-to-building ratio. The appraiser concluded that based on the sales data and applying adjustments to the comparable sales for differences from the subject, the subject had a market value of \$335,000. Based on this evidence the appellant is seeking a reduction in the subject's assessment to reflect the appraisal.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for one PIN, 19-10-225-025-0000, of \$24,544. The record includes the Cook County board of review 2024 Assessed Valuations decision which indicates the assessment for PIN 19-10-225-026-000 is \$24,910. The subject's assessments reflect a total market value of \$494,540 or \$87.92 per square foot of living area, including land, when applying the level of assessments for class two property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review did not offer any evidence in support of the assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The Board finds the appellant submitted a credible appraisal report with reasonable and logical adjustments for differences from the subject. The board of review did not submit any evidence in support of the assessment. The subject's current assessment reflects a market value of \$494,540, which is higher than the appraised value of \$335,000. Based on the evidence presented, the Board finds the subject property is overvalued and a reduction commensurate with the appellant's request is warranted. Since market value has been established the level of assessment for class two property under the Cook County Real Property Assessment Classification Ordinance shall apply. (86 Ill.Admin.Code §1910.50(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
