

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Margaret Davis
DOCKET NO.: 24-42675.001-R-1
PARCEL NO.: 10-33-117-034-0000

The parties of record before the Property Tax Appeal Board are Margaret Davis, the appellant, by Robert Rosenfeld, attorney-at-law of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,643
IMPR.: \$34,357
TOTAL: \$50,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a split-level dwelling of masonry exterior construction containing 1,575 square feet of living area. The dwelling was constructed in 1971 and is approximately 53 years old. Features of the property include a partial basement with a formal recreation room, central air conditioning, 1½ bathrooms, and a 2-car garage. The property has a 5,046 square foot site located in Chicago, Jefferson Township, Cook County. The subject is a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables composed of class 2-34 properties improved with split-level dwellings of masonry exterior construction that have either 1,290 or 1,715 square feet of living area. The homes are 53 to 55 years old. Each property has a partial basement, central air conditioning, one or two

bathrooms, and a 1-car garage. The comparables have the same neighborhood code as the subject and are located from .2 to .4 of a mile from the subject. These properties have improvement assessments ranging from \$26,500 to \$36,105 or from \$20.54 to \$21.05 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$32,870.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$50,000. The subject property has an improvement assessment of \$34,357 or \$21.81 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-34 properties improved with multi-level dwellings of masonry exterior construction that range in size from 1,470 to 1,575 square feet of living area and are 54 to 57 years old. Each property has a partial basement with a formal recreation room, a 2-car garage and 1, 1½ or 2½ bathrooms. Three comparables have central air conditioning and one comparable has one fireplace. These properties have the same neighborhood code as the subject property and located in the same block or ¼ of a mile from the subject. Each property is located along the same street as the subject property. Their improvement assessments range from \$33,250 to \$34,361 or from \$21.81 to \$22.62 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on eight equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject in location and size than are the comparables provided by the appellant. The board of review comparables are also relatively similar to the subject in features. These comparables have improvement assessments that range from \$33,250 to \$34,361 or from \$21.81 to \$22.62 per square foot of living area. The subject's improvement assessment of \$34,357 or \$21.81 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
