

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Henry Schleichkom
DOCKET NO.: 24-42752.001-R-1
PARCEL NO.: 13-13-216-004-0000

The parties of record before the Property Tax Appeal Board are Henry Schleichkom, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,968
IMPR.: \$90,239
TOTAL: \$110,207

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,508 square feet of living area. The dwelling is approximately 105 years old. Features of the home include a full basement, a fireplace, and a 2-car garage. The property has a 5,625 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject. The comparables are class 2-06 properties improved with dwellings of frame, masonry or frame and masonry exterior construction that range in size from 2,323 to 2,645 square feet of living area. The dwellings are 64 to 116 years old. The comparables have full basements, central air conditioning,

and either a 1-car, a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$50,419 to \$71,918 or \$20.58 to \$27.88 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The appellant provided a copy of the Cook County Board of Review final decision disclosing the subject has a total assessment of \$110,207. The subject property has an improvement assessment of \$90,239 or \$35.98 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within approximately ¼ of a mile from the subject. The comparables are class 2-06 properties improved with 2-story dwellings of frame or masonry exterior construction ranging in size from 2,508 to 2,549 square feet of living area. The dwellings are 112 to 123 years old. The comparables have full basements, central air conditioning, and a 2-car garage. One comparable has a fireplace. The comparables have improvement assessments ranging from \$98,220 to \$109,607 or from \$38.55 to \$43.00 per square foot of living area.

The board of review provided a notation with a summarized analysis of both parties' comparables stating the board of review's comparables are closer to the subject in age and dwelling size than the appellant's comparables. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested comparables for the Board's consideration. The Board gives less weight to appellant's comparables #3 and #5 and the board of review's comparable #3 which are less similar to the subject in age than the other comparables in the record.

The Board finds the best evidence of equity to be parties' remaining comparables which are located within the subject's assessment neighborhood and overall are more similar to the subject in age, dwelling size and some features. However, each of the dwellings has central air conditioning, a feature the subject lacks, suggesting downward adjustments are needed in order to make them more equivalent to the subject. These six comparables have improvement assessments ranging from \$50,419 to \$109,607 or from \$20.58 to \$43.00 per square foot of living area. The subject's improvement assessment of \$90,239 or \$35.98 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board

finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
