

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marko Obranovic
DOCKET NO.: 24-43169.001-R-1
PARCEL NO.: 13-02-431-038-0000

The parties of record before the Property Tax Appeal Board are Marko Obranovic, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,688
IMPR.: \$47,313
TOTAL: \$67,001

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story multi-family building of masonry exterior construction with 4,242 square feet of gross building area. The building is approximately 97 years old and features a full basement and a 1.5-car garage. The property has a 5,625 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-11, 2-story multi-family buildings of masonry exterior construction ranging in size from 3,684 to 4,829 square feet of gross building area. The buildings are from 68 to 74 years old. Each comparable has a full basement, two comparables each have central air

conditioning, and one comparable has a 2-car garage. The comparables have improvement assessments ranging from \$32,531 to \$48,470 or from \$8.83 to \$10.68 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$41,063 or \$9.68 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,001. The subject property has an improvement assessment of \$47,313 or \$11.15 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within the subject's assessment neighborhood and two of which are located within approximately ¼ of a mile of the subject. The comparables consist of class 2-11, 3-story buildings of masonry exterior construction ranging in size from 3,984 to 4,644 square feet of gross building area. The buildings are 97 or 101 years old. Each building has a partial or a full basement, and either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$48,211 to \$54,875 or from \$11.16 to \$12.77 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives reduced weight to the appellant's comparables which differ from the subject in design, age, dwelling size and/or present central air conditioning or lack a garage, unlike the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables which overall are most similar to the subject in design, age, building size, location and other features. These three comparables have improvement assessments ranging from \$48,211 to \$54,875 or from \$11.16 to \$12.77 per square foot of gross building area. The subject's improvement assessment of \$47,313 or \$11.15 per square foot of gross building area falls below the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
