| **LAND:** | $13,125 |
| **IMPR.:** | $30,875 |
| **TOTAL:** | $44,000 |

Subject only to the State multiplier as applicable.

## Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

## Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 2,128 square feet of gross building area. The building is approximately 98 years old. Features include a full basement and a 1-car garage. The property has a 3,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-11 buildings of masonry exterior construction ranging in size from 2,116 to 2,278 square feet of gross building area. The buildings are from 68 to 104 years old. Each comparable has a full basement, two of which are finished with an apartment or

formal recreation room, and from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from $25,596 to $31,875 or from $11.67 to $13.99 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $44,000. The subject property has an improvement assessment of $30,875 or $14.51 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-11 buildings of masonry exterior construction ranging in size from 2,116 to 2,605 square feet of gross building area. The buildings are from 98 to 102 years old. Each comparable has a full basement, one of which is finished with an apartment, and a 1-car or a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments of either $31,875 or $37,875 or ranging from $14.54 to $15.06 per square foot of gross building area. Based on this evidence the board of review requested confirmation of the subject's assessment.

## Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Adm.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Adm.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2, and #3, as well as board of review comparables #1 and #3, due to substantial differences when compared to the subject in age, size, finished basement area, and/or central air conditioning amenity.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4, as well as board of review comparables #2 and #4, which are overall more similar, if not identical, to the subject in location, design/class, age, size, and features. These comparables have improvement assessments of $31,875 or ranging from $13.99 to $14.98 per square foot of gross building area. The subject's improvement assessment of $30,875 or $14.51 per square foot of gross building area falls below the best comparables in this record on an overall basis and falls within the range established by them on a per square foot basis. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
