

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alexander Gonzalez Alexis Interrante
DOCKET NO.: 24-43790.001-R-1
PARCEL NO.: 10-31-309-008-0000

The parties of record before the Property Tax Appeal Board are Alexander Gonzalez Alexis Interrante, the appellant(s), by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,345
IMPR.: \$28,778
TOTAL: \$39,123

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant filed a timely appeal from a decision of the Cook County Board of Review pursuant to Section 16-160 of the Property Tax Code (*35 ILCS 200/16-160*) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 98-year-old, one and one-half-story, building of frame and masonry exterior construction. It contains 1,392 square feet of building area. Features of the subject include a full unfinished basement, central air conditioning, and a two-car garage. The property is situated on 3,337 square feet of land in Jefferson Township, Cook County. The subject is classified as a Class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation and assessment inequity as the bases of the appeal. In support of the overvaluation argument, the appellant submitted a settlement statement that disclose the subject was sold on March 24, 2023, for \$365,000. The settlement statement did not

disclose a real estate agent's commission. The subject's sale price reflects a market value of \$262.21 per square foot of building area including land. The appellant provided information in Section IV–Recent Sale Data of the Residential Appeal that the subject was not transferred between related parties; was not advertised for sale but was sold through a realtor; was not sold due to a foreclosure. In support of the assessment inequity argument, the appellant submitted information on four suggested equity comparable properties. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price when applying the 2024 level of assessment of 10.00% for Class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment of \$39,123 for the subject property. The subject property has an improvement assessment of \$28,778, or \$20.67 per square foot of living area. The subject's assessment reflects a market value of \$391,230, or \$281.06 per square foot when applying the 2024 level of assessment of 10.00% for Class 2 property under the Cook County Real Property Assessment Classification Ordinance. In support of its contention of the correct assessment, the board of review submitted information on four suggested comparable sales and on four suggested equity properties.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. *86 Ill.Admin.Code §1910.63(e)*. Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. *86 Ill.Admin.Code §1910.65(c)*. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board gives little weight to the subject's sale because it was not advertised or exposed on the open market. Although the appellant disclosed in Section IV of the Petition that the subject was sold through a realtor, the settlement statement did not disclose information of a realtor's commission. The appellant also disclosed the subject was not advertised for sale. This leaves a lack of evidence of whether the subject was sold for fair cash value in an open and competitive market.

The appellant did not submit additional evidence of what the market may have been for similar properties. Although the appellant submitted equity comparable properties, these did not cite recent sale data. In contrast, the board of review submitted four recent suggested sale comparable properties. The Board finds the best evidence of market value to be the board of review comparable sale(s) #1 and #2. These comparable properties sold for prices ranging from \$398.28 to \$421.61 per square foot of living area, including land. The subject's assessment reflects a market value of \$281.06 per square foot of living area including land, which is below the range established by the best comparable sales in this record. Based on this evidence, the Board finds a reduction in the subject's assessment based on overvaluation is not justified.

The appellant also contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. *86 Ill.Admin.Code §1910.63(e)*. Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question and recommended not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparable properties to the subject property. *86 Ill.Admin.Code §1910.65(b)*. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparable(s) #1, #2 and #4, and the board of review's comparable(s) #1 and #2. These comparable properties had improvement assessments that ranged from \$18.33 to \$20.87 per square foot of gross building area. The subject's improvement assessment of \$20.67 per square foot of gross building area is within the range established by the best comparable properties in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and holds that a reduction in the subject's assessment based on assessment inequity is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
