FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Chester Grodek
DOCKET NO.: 24-43833.001-R-1
PARCEL NO.: 13-13-207-010-0000

The parties of record before the Property Tax Appeal Board are Chester Grodek, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$13,419
IMPR.:	$47,803
TOTAL:	$61,222

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of frame exterior construction with 2,082 square feet of building area. The building is approximately 118 years old. Features of the building include a basement and a 2-car garage. The property has an approximately 3,780 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information, including property characteristics printouts, on five equity comparables located within the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-11 buildings of masonry exterior construction ranging in size from 2,750 to 3,960 square feet

of building area. The buildings are from 98 to 112 years old. Each comparable has a basement and either a 1-car, a 2-car or a 4-car garage. The comparables have improvement assessments ranging from $39,505 to $56,665 or from $12.94 to $14.58 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to $29,918 or $14.37 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $61,222. The subject property has an improvement assessment of $47,803 or $22.96 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within the subject's block or approximately ¼ of a mile from the subject property. The comparables are improved with 2-story class 2-11 multi-family buildings of frame exterior construction ranging in size from 2,044 to 2,136 square feet of building area. The buildings are from 115 to 122 years old. Each comparable has a basement and a 2-car garage. One building has central air conditioning. The comparables have improvement assessments ranging from $49,186 to $54,688 or from $23.83 to $25.60 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to each of the appellant's comparables which are significantly less similar to the subject in building size than the board of review's comparables.

The Board finds the best evidence of assessment equity to be the board of review comparables which are most similar to the subject in location, age, design, building size and most features. These comparables have improvement assessments ranging from $49,186 to $54,688 or from $23.83 to $25.60 per square foot of building area. The subject's improvement assessment of $47,803 or $22.96 per square foot of building area falls within the range established by the best comparables in this record on an overall improvement assessment basis and below the range on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
