FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Ricardo Rodriguez
DOCKET NO.: 24-44192.001-R-1
PARCEL NO.: 13-26-424-005-0000

The parties of record before the Property Tax Appeal Board are Ricardo Rodriguez, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***A Reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$19,031
IMPR.:	$28,558
TOTAL:	$47,589

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story multi-family building of masonry exterior construction with 2,746 square feet of building area. The building is approximately 112 years old. Features include a full basement with a recreation room and a 2.5-car garage. The property has a 4,375 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-11 multi-family buildings that range in size from 2,592 to 3,008 square feet of building area. The buildings are from 101 to 110 years old. Each comparable has

a full basement and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from $25,227 to $29,813 or from $9.56 to $10.42 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to $28,092.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $67,000. The subject property has an improvement assessment of $47,969 or $17.47 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables improved with 1.8-story or 2-story, class 2-11 multi-family buildings of masonry exterior construction that range in size from 1,746 to 2,072 square feet of building area. The buildings range in age from 100 to 113 years old. Each comparable has a full basement. One comparable has a 1-car garage. The comparables have improvement assessments ranging from $31,027 to $48,602 or from $17.77 to $23.52 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives diminished weight to the board of review comparables which are substantially smaller homes than the subject and/or lack garage amenities, which the subject features.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are overall most similar to the subject in location, design/class, age, size, and features. These comparables have improvement assessments ranging from $25,227 to $29,813 or from $9.56 to $10.42 per square foot of building area. The subject's improvement assessment of $47,969 or $17.47 per square foot of building area falls above the range established by the best comparables in this record and appears to be excessive. Based on this record and after considering the appropriate adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
