Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a 2-story dwelling of frame and masonry exterior construction with 4,174 square feet of living area. The dwelling is approximately 75 years old.¹ Features of the home include a basement with finished area, central air conditioning and a 2.5-car garage. The property has an approximately 11,400 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The

¹ The Board finds the best description of the subject was found in the grid analysis submitted by the board of review which was not refuted by the appellant.

comparables are improved with 2-story class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 4,065 to 4,356 square feet of living area. The homes range from 70 to 83 years old. Each comparable has a basement and one or two fireplaces. Three dwellings each have central air conditioning and a 1-car or 2-car garage. The appellant reported "unknown" in the finished basement area line of the grid analysis. The comparables have improvement assessments ranging from \$51,364 to \$61,513 or from \$12.16 to \$15.05 per square foot of living area. Based on this evidence, the appellant requested the subject's combined improvement assessment be reduced to \$58,019 or \$13.90 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for one of the subject's two parcels. The appellant submitted a copy of the Cook County Board of Review's final decision disclosing the combined total assessment for the subject of \$112,120. The subject property has a combined improvement assessment of \$76,780 or \$18.39 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. Board of review comparable #1 depicts the subject's second parcel. Comparables #2, #3 and #4 are improved with 2-story class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 3,246 to 4,353 square feet of living area. The homes are from 70 to 86 years old. Two comparables have a basement, one with finished area and one comparable has a concrete slab foundation. Each dwelling has central air conditioning and from a 1-car to a 2.5-car garage. Two homes each have a fireplace. The comparables have improvement assessments ranging from \$63,052 to \$83,660 or from \$19.22 to \$19.80 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven equity comparables for the Board's consideration. The Board gives reduced weight to appellant comparable #1 along with board of review comparables #3 and #4 which are less similar to the subject in foundation type, dwelling size, lack central air conditioning and/or lack a garage.

The Board finds the best evidence of assessment equity to be appellant comparables #2, #3 and #4 along with board of review comparable #2 which are more similar to the subject in location, age, design, dwelling size and some features. These comparables have improvement assessments ranging from \$60,776 to \$83,660 or from \$14.12 to \$19.22 per square foot of living area. The subject's combined improvement assessment of \$76,780 or \$18.39 per square foot of

living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
