

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Allison Hickson  
DOCKET NO.: 24-44665.001-R-1  
PARCEL NO.: 14-20-417-050-1002

The parties of record before the Property Tax Appeal Board are Allison Hickson, the appellant(s), by attorney Nicholas T. McIntyre, of Much Shelist, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,700  
**IMPR.:** \$43,800  
**TOTAL:** \$56,500

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The property is a 3,090 square foot site located in Chicago, Lakeview Township, Cook County. The subject property consists of an approximately eight-year-old, three-story, three-unit, residential condominium building of masonry construction. The dwelling features include a full basement, two bathrooms, air-conditioning, and a detached garage. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on October 20, 2021, for a price of \$565,000. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the subject was sold by a realtor, was advertised for sale on a multiple listing service for over two months, was not sold subject to a foreclosure action or using a contract for deed, and the parties were not related. In addition, the appellant provided a settlement statement documenting the sale

of the subject, as well as a realtor condominium purchase and sale contract. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total valuation for the subject of \$62,623 which reflects a market value of \$626,230, land included, when applying the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted a condominium sales analysis based on the recent sale of all three units in subject building. Unit 1001, holding 39.80% ownership, sold on September 17, 2021, for \$975,000, Unit 1002, the subject, holding 27.40% ownership sold on October 27, 2021, for \$565,000, and Unit 1003, holding 32.80% ownership, sold on June 2, 2021, for \$745,500. The board of review then calculated percentage of ownership of 100% resulting in a full market value of \$2,285,500. Dividing this value by the subject's ownership percentage results in the subject's fair market value of \$626,227 with a total assessed value of \$62,623 when applying the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance. Based on this analysis, the board requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in October 2022 for a price of \$565,000. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related and the property had been advertised for sale. In further support of the transaction the appellant submitted a copy of the sales contract and settlement statement contemplating a transaction between a willing seller and a willing buyer. The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction and, in fact, included this sale in their own evidence. The Board finds the purchase price is below the market value reflected by the assessment. Therefore, a reduction in the subject's assessment commensurate with the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
