

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gheorghe Vecerdea
DOCKET NO.: 24-46003.001-R-1
PARCEL NO.: 13-01-209-013-0000

The parties of record before the Property Tax Appeal Board are Gheorghe Vecerdea, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,875
IMPR.: \$38,125
TOTAL: \$52,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of masonry exterior construction with 3,083 square feet of gross building area. The building is approximately 80 years old. Features include a full basement and a 2-car garage. The property has a 2,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject. The comparables are improved with class 2-11, 1.5-story or 2-story multi-family buildings of frame, masonry or frame and masonry exterior construction ranging in size from 3,063 to 3,980 square feet of gross

building area. The buildings are from 68 to 113 years old. Each comparable has a full basement, one comparable has a fireplace, and four comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$25,976 to \$35,786 or from \$7.82 to \$8.99 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$52,000. The subject property has an improvement assessment of \$38,125 or \$12.37 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood and within the subject's block or approximately $\frac{1}{4}$ of a mile from the subject. The comparables are improved with class 2-11, 2-story multi-family buildings of masonry exterior construction ranging in size from 2,796 to 3,101 square feet of gross building area. The buildings are from 75 to 100 years old. Each comparable has a partial or full basement and either a 1-car, a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$34,738 to \$40,125 or from \$12.42 to \$13.70 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2, #3 and #5 along with the board of review's comparables #2, #3 and #4 due to differences in their design, age and/or building size when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which overall are most similar to the subject in location, design, age, and building size but have varying degrees of similarity to the subject in other features. These two comparables have improvement assessments of \$27,390 and \$38,645 or \$8.94 and \$12.46 per square foot of gross building area. The subject's improvement assessment of \$38,125 or \$12.37 per square foot of gross building area is bracketed by the two best comparables in this record. After considering adjustments to the two best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
